

Talks 58 - God's Messengers / Prophets and God's Mysterious Ways...

So I'd like to talk to you about Prophets now if I may - Prophets of long ago, and one's of now - I expect many people will have had a single message or a dream from God in difficult times to help them.

Doesn't matter if you're a farm worker, IT specialist, or retired - it can happen... But when someone gets many messages from God to deliver for the good of the people 'then' you become a Prophet / a Messenger of God.

I'll just tell you about my life journey, I became psychic in 2015, much guidance then - 4 years later just before 2020 I started to get the tummy growling / rumbling at any time of the day, and especially at night.

Not a clue what was going on - I'd researched mind strength / spiritual for several years by then as told to spiritually - after hearing tap, tap tap on the window frame early mornings, wife couldn't hear it - just me.

In 2019 I started to see this tiny strong white figure in my mind as going to sleep, most nights, just there in the distance - and with the tummy rumbling especially, I eventually worked out it was the Holy Spirit, one of the main three.

Then onto 2020 and instructions to help worldwide with the covid stuff, my wife was beginning to get used to all that was happening to me, and one day tummy rumbling one evening - she suddenly said 'are you being spoken to' at this very same time I just typed in my phone Prophet 888, I didn't even know I was doing it.

Then in 2022 I started to hear a light / deep sounding whoosh whoosh in my right ear, especially as going to sleep - then sometimes random frozen hand, arm, leg in the night, all sorted now I know - but the dreams, oh the dreams, and sudden sneezing, up you get and write something sent to mind.

It was some time later that I realised it wasn't whoosh it was gentle roar - and when I'd hear this roar roar 'I'd suddenly know something' what's known as Psychic Clear Knowing, like an advanced gut feeling.

I know now all teaching from God and the Mysterious Ways, and that sinus issue 'spiritual flu' on the wrong path a while - the frozen limbs issues in bed wiggle it to clear - all corrected now I know, apart from the hand occasionally after meditation - a message God is with me guiding / with writing.

So now I've been specialising in God's Mysterious Ways...
