

Talks 80 - Spiritual...

Hi everyone, my name's Steve I'd just like to share some of my spiritual experiences with you all... I was a car mechanic in Stoke for many decades, then retrained as a website designer 25 years ago, somewhere along my way I ran out of money, and ended up renting a house.

And back in 2005 I had a message one night, a spiritual message - you will move to a different town and work in a den, and then for 2 or 3 years after I'm occasionally thinking where's this den.

Then a few years later I met and married my 2nd wife in Macclesfield, the two spare rooms had grown up kids - and I had to put my computer in a big under stairs cupboard to work as a web designer.

But 10 years after meeting her I had difficult health issues, I stopped eating, and I had a NDE, I felt a hand on my forehead and then recovered fast, and I became psychic after, as in receiving spiritual guidance.

That took some working out I can tell you, you don't get an email, it's signs, nudges - but many times you get words spoken, and dreams sent or gut feeling / clear knowing messages many in the night.

6 years research I did, starting 2017 on mind strength, fighting viruses, self healing and spiritual in preparation, I know now... Everything in the universe is vibrational energy 'vibes' including humans - 4 high vibes words to recite in mind are 'lovely gorgeous beautiful light' - vibes up / mind calm / guidance.

Then in 2020 I started to get guidance from the Holy Spirit in the covid days, preparation, given instructions sent to help on Facebook groups, and help the 100k Doctors and Nurses get their jobs back in 2022 with spiritual guidance.

I helped by telling the nurses and doctors in the Facebook group - we can all get gut feeling spiritual messages from Spirit Guides... If you search online for 2nd brain it's in the gut - some mind calm time 30 mins no phone, warm drink, smile, mind clear - for that brilliant idea that just comes to mind.

So, we all get guidance when you ask - then remember to calm your mind.
